Sexual Violence Awareness Month

x 4 pages

Thanks to our sponsors:

dvanced Publishing Systems

October is Sexual Violence Awareness Month in Queensland, an opportunity for organisations and communities across Queensland to raise awareness about what sexual violence is and how we can support each other

Come join the South Burnett Sexual Assault Action Group's Reclaim the Night event.

When: Thursday 21st of October from 5pm

Where: Kingaroy Town Hall Forecourt

The night will hold live music from "Misfitz", a sausage sizzle, installation Illustrating the history of Reclaim the Night, resources available to take home, a live panel with survivors, police, sexual assault counsellors and other health professionals, and finishing off with our march through the streets of Kingaroy CBD to make some noise and raise awareness.

What is Sexual Violence?

Sexual violence is any form of forced or unwanted sexual behaviour that occurs towards another person without consent. Some examples include:

· Rape e.g. being forced to have vaginal, anal or oral sex

· Touching someone in a sexual way without consent such as; pinching, patting, running, groping, kissing, touching breasts, bottoms or legs etc. · Unwanted, offensive or invasive sexual comments, jokes, text messages, photos, emails, social media posts and/or messages

· Pressuring, coercing or forcing someone to have sex · Being forced to participate in or watch porn, including having photos taken and/or shared without permission, or forcing someone to be in a video

. Having sex with someone who is under the influence of drugs and/or alcohol or who is unconscious or asleep.

 Child sexual abuse – any sexual act or behaviour towards someone under the age of 16 years.

What are the latest statistics?

In Australia (2019):

 26,892 victims of sexual assault were recorded by police. · 44% of these reports involved a survivor who was under the age of 15 years when the incident occurred 83% of victims were female 67% of assaults occurred in a residential location

In Queensland (between 2018-2019):

. There were over 5 times more female victims then males 23% of sexual assault victims were aged between 15-19 years 73% of victims knew their offender

Myth: Most rape allegations are fabricated

Reality: An estimated 87% of sexual assaults are never reported to the police. The real numbers are likely to be much higher (Department of Justice and Attorney-General, 2021)

If you have experienced sexual violence, support is available.

Centacare Family and Relationship Care Kingaroy offer a safe and supportive place for people aged 12 years and over. To find out more about how they can support, call 416254398.

Laurel Place Murgon offer a safe and supportive place for children aged up to 16 years. To find out more about how they can support, call 5443 4711

Should you or someone you know be in immediate danger please call 000. If you have recently experienced sexual violence we recommend seeking medical support.

N@OSATODAY

Noosa Today Newspaper's online audience engagement has skyrocketed within the past year through the use of consistent content and technical improvements.

According to Google Analytics in January 2022, Noosa Today had 70.3K users visit our website, which was up 158.7 per cent compared to the previous month. Close to 40 per cent of those visitors came from an 'Organic Search', while 34.1 per cent found the site via social media.

To drive audience engagement, Noosa Today focuses on writing the issues that matter to the local residents in real time.
